**Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers**

On August 16, 2017, Jeffrey Wright resigned from his position as Chief Financial Officer of the Company. The resignation is not in connection with any known disagreement with the Company on any matter relating to the Company's operations, policies or practices. Mr. Wright will remain with the Company as its Controller which will be deemed to be an executive officer position..

On August 16, 2017, the Board appointed Charles Farrahar to serve as the Company's Chief Financial Officer, effective August 16, 2017. Currently, Mr. Farrahar will continue with his \$40,000 per year salary and will be eligible to participate in the Company's bonus and stock option programs.

*Charles Farrahar*

Charlie Farrahar is a Certified Public Accountant with over 30 years of managerial finance, administration, human resource and risk management experience in the public, private and non-profit sectors. Mr. Farrahar was the first Chief Financial Officer of the Company from its inception in 2013 through its initial public offering. He remained with the Company as its Secretary, only, from January 2015 until August 16, 2017, when he agreed to resume the CFO role. Mr. Farrahar currently serves as Chief Financial Officer for several small private biotech companies in the research and development stage. In 2013, he joined a private governmental assistance startup as its CFO and Director of Human Resources, helping with the sale of that company to a private entity in 2011 after it had grown to a multi-state operation with over 400 employees. In the late 1990's, he was CFO of Credit Depot Corp. (a Nasdaq listed entity).

In addition on August 16, 2017, Mr. Steve Gorlin resigned as a Director of the Company and as the Co-Chairman of the Board. On August 16, 2017, Mr. Jesse Crowne was appointed to the Board to fill the vacancy and as the Executive Co-Chairman of the Board.

*Jesse Crowne*

Jesse Crowne has been acting as a Vice President of Business Development for the Company since January 2015. Mr. Crowne has been a Managing Partner at Gorlin Companies, a healthcare focused single family office specializing in founding and funding early ventures since July 2015. Between August 2015 and January 2017, Mr. Crowne has been the President of Vavotar Life Sciences, a private clinical stage biotechnology company developing antibody directed oncology products. Since 2016, Mr. Crowne has served as an Adjunct Professor at Westminster College teaching a course on financing new ventures to MBA students. From October 2013 to March 2014, he was the Co-Founder of Virtual Clinic Trials, LLC, a cloud based document management solution for clinical trials until it was sold to Global Deal Market in 2014. From 2010 to June 2014, he was an associate at White Pine Medical, a subsidiary of Essex Woodlands, which was a private equity investment fund seeking late-stage medical device opportunities.

**Item 7.01 Regulation FD Disclosure**

On August 17, 2017, the Company issued a press release announcing the appointment of Mr. Farrahar as the Company's Chief Financial Officer, as set forth in Item 5.02 above. On August 21, 2017, the Company issued a press release announcing the appointment of Jesse Crowne as a Director and Co-Chairman. A copy of the press releases are attached to this report as Exhibits 99.1 and 99.2, respectively, and shall not be deemed incorporated by reference into any of the Company's registration statements or other filings with the SEC, except as shall be expressly set forth by specific reference in such filing.

The information contained in this Current Report on Form 8-K shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "**Exchange Act**"), or incorporated by reference in any filing under the Securities Act or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing. The furnishing of the information in this Current Report on Form 8-K is not intended to, and does not, constitute a representation that such furnishing is required by Regulation FD or that the information contained in this Current Report on Form 8-K constitutes material investor information that is not otherwise publicly available.

The Securities and Exchange Commission encourages registrants to disclose forward-looking information so that investors can better understand the future prospects of a registrant and make informed investment decisions. This Current Report on Form 8-K and exhibits may contain these types of statements, which are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, and which involve risks, uncertainties and reflect the Registrant's judgment as of the date of this Current Report on Form 8-K. Forward-looking statements may relate to, among other things, operating results and are indicated by words or phrases such as "expects," "should," "will," and similar words or phrases. These statements are subject to inherent uncertainties and risks that could cause actual results to differ materially from those anticipated at the date of this Current Report on Form 8-K. Investors are cautioned not to rely unduly on forward-looking statements when evaluating the information presented within.

**Item 9.01 Financial Statements and Exhibits**

(d) Exhibits.

<u>Exhibit No.</u>	<u>Description</u>
99.1	Press Release dated August 17, 2017
99.2	Press Release dated August 21, 2017

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

## Medovex Corporation Names Charlie Farrahar Chief Financial Officer

ATLANTA, GA--(Marketwired - Aug 17, 2017) - Medovex Corp. (NASDAQ: MDVX) ("Medovex" or the "Company"), the developer of the DenerveX™ System, a new and novel device designed for enduring relief of Facet Joint Syndrome related to back pain, today reported it has named Charlie Farrahar as its Chief Financial Officer.

Charlie Farrahar is a Certified Public Accountant with over 30 years of managerial finance, administration, human resource and risk management experience in the public, private and non-profit sectors. Mr. Farrahar was the first Chief Financial officer of the Company from its inception through IPO. He remained with the Company as its Secretary only from January 2015 until August 2017, when he agreed to resume the CFO role.

Mr. Farrahar currently serves as Chief Financial Officer for several small private biotech companies in the research and development stage. In 2003 he joined a private governmental assistance startup as its CFO and Director of Human Resources, helping with the sale of that company to a private entity in 2011 after it had grown to a multi-state operation with over 400 employees. In the late 1990's he was CFO of Credit Depot Corp. (Nasdaq).

At its August 16, 2017 quarterly Board meeting, the Board asked Charlie Farrahar, Company Secretary, to become Chief Financial Officer, a role he held from the inception of the Company through its initial public offering. Jeffery Wright, the former CFO, agreed to become the Company's first Controller.

Jarrett Gorlin, Medovex Chief Executive Officer, stated, "We're excited by the enthusiastic reception we've seen thus far to the DenerveX product and realize that we have to properly support sustained revenue growth. One area affected by this growth is the financial/accounting function. With the addition of overseas sales and all the administration that entails, we were no longer able to have just one full-time person in the finance area."

Gorlin continued, "We asked Charlie Farrahar to become CFO so Jeff Wright could focus on assisting our sales and distribution efforts as we expand sales into multiple countries. They have complementary skill sets and work well together. Their combined experience should allow us to properly steward anticipated growth associated with the launch of a successful new product targeting a broad audience."

The Company's DenerveX System recently received CE Mark approval and clearance for commercialization in the European countries and offers a unique way to perform a Facet Joint Syndrome treatment.

Facet Joint Syndrome (FJS), also known as spinal osteoarthritis, spinal arthritis, or facet joint osteoarthritis, is a significant health and economic problem in the United States and other countries in the EU and Rest of World affecting millions each year. Current treatment options are generally temporary and there is no proven long-lasting option for FJS.

The DenerveX System is a highly differentiated technology. It denervates and removes capsular tissue from the Facet Joint in one single procedure. Treatment results from the combined effect of a deburring or polishing action and RF ablation treatment on the Facet Joint. Using this new technique, the slowly rotating burr removes the targeted facet joint synovial membrane and joint surface while the heat ablation destroys tissue and denudes any residual nervous and synovial membrane overlying the joint, removing the end point sensory tissue of the joint.

The DenerveX System consists of the DenerveX Kit which contains the DenerveX Device, a single use medical device and the DenerveX Pro-40 Power Generator. DenerveX system is not yet FDA cleared.

### About Medovex

Medovex was formed to acquire and develop a diversified portfolio of potentially ground breaking medical technology products. Criteria for selection include those products with potential for significant improvement in the quality of patient care combined with cost effectiveness. The Company's first pipeline product, the DenerveX device, is intended to provide long lasting relief from pain associated with facet joint syndrome at significantly less cost than currently available options. ### Safe Harbor Statement

Certain statements in this press release constitute "forward-looking statements" within the meaning of the federal securities laws. Words such as "may," "might," "will," "should," "believe," "expect," "anticipate," "estimate," "continue," "predict," "forecast," "project," "plan," "intend" or similar expressions, or statements regarding intent, belief, or current expectations, are forward-looking statements. While the Company believes these forward-looking statements are reasonable, undue reliance should not be placed on any such forward-looking statements, which are based on information available to us on the date of this release. These forward looking statements are based upon current estimates and assumptions and are subject to various risks and uncertainties, including without limitation those set forth in the Company's filings with the Securities and Exchange Commission (the "SEC"), not limited to Risk Factors relating to its patent business contained therein. Thus, actual results could be materially different. The Company expressly disclaims any obligation to update or alter statements whether as a result of new information, future events or otherwise, except as required by law.

## **Medovex Corporation Appoints Gorlin Companies Managing Partner Jesse Crowne Director and Executive Co-Chairman of the Board**

ATLANTA, GA--(Marketwired - Aug 21, 2017) - Medovex Corp. (NASDAQ: MDVX) ("Medovex" or the "Company"), the developer of the DenerveX™ System, a new and novel device designed for enduring relief of Facet Joint Syndrome related to back pain, today announced it has appointed Jesse Crowne as Director and Executive Co-Chairman of the Board.

Jesse Crowne has been acting as a Vice President of Business Development for the Company since January 2015. Mr. Crowne has been a Managing Partner at Gorlin Companies; a healthcare focused single family office specializing in founding and funding early ventures since July 2015. Crowne replaces Steve Gorlin who will remain with the Company in a consultancy role.

Between August 2015 and January 2017, Mr. Crowne was the President of Vavotar Life Sciences, a private clinical stage biotechnology company developing antibody directed oncology products. Since 2016, Mr. Crowne has served as an Adjunct Professor at Westminster College teaching a course on financing new ventures to MBA students. From October 2013 to March 2014, he was the Co-Founder of Virtual Clinic Trials, LLC, a cloud based document management solution for clinical trials until it was sold to Global Deal Market in 2014. From 2010 to June 2014, he was an associate at White Pine Medical, a subsidiary of Essex Woodlands, which was a private equity investment fund seeking late stage medical device opportunities.

Steve Gorlin, Medovex Co-founder, stated, "I'm pleased to have accomplished my initial goal of seeing Medovex successfully progress from the development stage to the commercialization phase. I'm also extremely proud of our entire management team and their collective effort in getting us to the opportunistic place we find ourselves today. At no point in the Company's history have I ever been more confident in its future. Over the years, I've been intimately involved in many small healthcare related companies which eventually went on to experience sizeable value creation, but few were as personal as Medovex. My continuing commitment to the company can be no better evidenced than by my Form 4 filing made Wednesday memorializing my open market purchase of an additional 200,000 shares of our stock."

Gorlin continued, "I've worked closely with Jesse Crowne at my own company for some time now and I handpicked him based on a steadfast confidence in his ability to finish what we've started. I view him as the ideal person to assist in taking Medovex to the next level and I look forward to continuing to work closely with him, the board and management as we together seek to accomplish my ultimate goal of maximizing shareholder value."
